I am not allowed to use system commands or java NIO or anything of the sort. I want to kill this process with Java. I tried the following: Runtime.getRuntime().exec("/bin/kill pid"); But this doesnt work. I am not allowed to use it. This is what I have tried with ProcessBuilder. ProcessBuilder pb = new ProcessBuilder("/bin/kill", pid); and this also did not work. ProcessBuilder pb = new ProcessBuilder("kill", pid

VersalSoft File Download ActiveX Control With Key Latest
